

## 2017-2018 Board of Directors, Committees and Task Forces

One of AACE's greatest assets is the dedicated men and women who serve as your elected officers and directors, those who participate on AACE committees, and the many physicians at the grassroots who have represented AACE in health forums addressing a broad range of issues which affect endocrinologists. An additional important dimension of AACE activities during the past years has been the support provided by the leadership of AACE chapters and working collaboratively with other medical organizations on issues of common interest.

Each of these individuals has given freely and unselfishly of their time and talents on your behalf. The positive results of their efforts will be evident throughout the reports included in the Annual Business Meeting report. Please take time during the Annual Meeting to seek them out and thank them for all they do for our organization
